

# GlucoseBooster

## Fast-acting Glucose Gel

A convenient, fast-acting option for managing hypoglycaemia

**Fast-acting** - peak effect reached in just 5 minutes.

**Trusted manufacturing** - Made by the same manufacturer behind GlucosePro

**Cost-effective** - Designed to offer genuine savings without compromising on quality

**GlucoBooster** is specially designed for diabetics to prevent and correct hypoglycemia. The glucose monohydrate contained in the product is fast-acting sugar and the peak effect is reached in just 5 minutes. Easy to carry and use. Delicious blueberry taste. One 30g sachet contains 10g of carbohydrates.

### ✓ Features & Benefits

- **Stomach friendly** - Glucose monohydrate is a well-tolerated form of carbohydrate
- **100% Vegan** - suitable for those following a plant-based diet
- **Pleasant taste** - Delicious blueberry taste
- **Take with or without water** - Absorption can be further enhanced by drinking a little water at the same time
- **Works quickly** - Pure glucose monohydrate is absorbed and works very quickly.
